ROKSOLANA KUSHNIR
Frontend developer

SUMMARY

A productive and motivated developer, I have a great interest in front-end development and have 2 years of experience in creating a convenient and aesthetic user interface. I can work with designers to ensure good visual appearance and interaction of applications.My strengths include the ability to learn quickly, work effectively in a team, and have an excellent problem-oriented mindset. A responsible approach to work and the ability to achieve results within limited deadlines. I am constantly updating my skills and following the latest development trends. Ready to contribute to your company and develop professionally. I am looking for challenges and growth opportunities, so I would be happy to join your development team.
